

REMARKS

In the last Office Action, claims 1 and 4 were rejected under 35 U.S.C. §102(e) as being anticipated by US 2003/0169022 to Turner et al. ("Turner"), and claims 14-16 were rejected under 35 U.S.C. §103(a) as being unpatentable over Turner. Claims 2, 3 and 17 were objected to as being dependent upon a rejected base claim and were otherwise indicated to be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 5-13 and 18-20 were allowed. The title of the invention was objected to as being insufficiently descriptive, and a new title was required.

In accordance with this response, the application has been amended to include a new, more descriptive title. Allowable dependent claims 2, 3 and 17 have each been rewritten in independent form to incorporate the subject matter of base claim 1. Rejected claims 1, 4 and 14-16 have been canceled.

Applicants and applicants' attorney acknowledge with appreciation the allowance of claims 5-13 and 18-20 and the indication of allowability concerning claims 2, 3 and 17.

To promptly place the application in allowable form, rejected claims 1, 4 and 14-16 have been canceled and allowable dependent claims 2, 3 and 17 have been rewritten in independent form to incorporate the subject matter of base

claim 1. As a result of these amendments, only allowed claims 5-13 and 18-20 and allowable claims 2, 3 and 17 are pending in the application. Claims 1, 4 and 14-16, which were all of the rejected claims, have been canceled.

In view of the foregoing, the application is now believed to be in allowable form. Accordingly, favorable reconsideration and passage of the application to issue are respectfully requested.

Respectfully submitted,

ADAMS & WILKS
